 - Algorithms
 - Critical thinking
 - Data-structures
 - Fundamentals of programming language

WORK EXPERIENCE

Frontend Developer ViveaMind

01/2023 - 08/2023

USA

- Achievements/Tasks
 - Designed, developed, and maintained web applications using ReactJS, HTML, and CSS
 - Collaborated with the UX design team to create visually appealing and intuitive user interfaces
 - Worked closely with the backend development team to integrate frontend with backend systems

Frontend Developer Lumofy

08/2023 - 11/2023

Bahrain

- Achievements/Tasks
 - During my time at Lumofy, I made significant contributions to several key projects. Notably, I played a pivotal role in enhancing the user interface and user experience of a critical application.
 - I encountered and resolved various technical challenges that arose during my tenure. I consistently demonstrated my problem-solving skills by identifying and fixing complex bugs in the codebase. I also took the initiative to optimize the performance of our web applications, resulting in a 15% improvement in loading times.
 - Collaboration was a key aspect of my role, and I worked effectively with cross-functional teams. I collaborated closely with designers, backend developers, and other team members to ensure the seamless integration of frontend components into our projects.

SKILLS
